

Fetal Bovine Serum

SAFC Supply Solutions® extensive production capabilities can provide the diagnostics manufacturing industry with a wide variety of Fetal Bovine Serum product options. Our capabilities include:

- Over 30 years of serum production experience
- A consistent, dependable supply for our raw materials
- ISO certified quality — from collection point to final product
- Customization to meet specific customer requirements
- A wide selection of material origin and specifications
- Extensive breadth of sera product and sera product alternatives
- A sera reservation program to support sample testing, including multiple batches
- A batch-to-batch reservation
- Storage up to 12 months
